August 23, 2025

Dear Advocate for Life and Justice,

It has now been over a year since we first launched the *Stop the Center* campaign in June 2024. In that time, through your courage and persistence, we estimate that **over 50,000 letters and phone calls** have been sent to the 50+ companies we've identified — companies who must decide whether or not to participate in building this abortion mega-center in Las Cruces. Because of your action, this project has already been delayed by at least **six months** beyond its original timeline. They once hoped to open their doors as early as September 2025 — *next month.*

But now, the University of New Mexico and Governor Michelle Lujan Grisham have reset their goal: construction starting in September or October. That means bulldozers could roll in as early as next month. In a bitter irony, the governor has even **invoked the name of God** to advance this destructive plan, declaring, *"I'm still going to be governor, by God, by the time we open those doors, or else."*

This past year has been **Phase 1** of our campaign — delaying and deterring contractors from ever agreeing to touch this project. We are in the final stretch of this first phase, and the stakes could not be higher. But even if construction begins, rest assured: there is still a **Phase 2.** While this becomes more challenging, we will be prepared with additional steps to delay the project at every stage. If we can continue to hold them off through the end of 2026, when a new administration will take office, then Governor Lujan Grisham's vow will be thwarted. At that time, there is then a possibility that the building or $10 million already allocated could be redirected to what our state truly needs: **authentic, life-affirming women's healthcare** in this maternal health desert — not yet another abortion center, especially when there are already four operating in Doña Ana County to target Texas women on New Mexico taxpayers' dime.

That is why this Action Packet is so urgent:

- **Send Another Round of Letters:** Even if you've already signed and mailed before, do it again. Fresh letters mean fresh impact. Gather friends, family, or your church group to multiply your voice. You can print and share additional letters directly from **StopTheCenter.com**.
- **Make Phone Calls & Visits:** Use the phone numbers and addresses at **StopTheCenter.com** to call or stop by local offices. Let them know we are still watching, still united, and still determined.
- **Engage Your Church or Community:** Host a *letter-signing party* or invite us to put on a no-cost *pro-life action dinner* at your church. Together we can equip hundreds more to join the effort.

Our rallying cry is simple and powerful: **No Contractors. No Construction. No Center.**

This is the moment to stand boldly, prayerfully, and persistently. History has shown that when communities unite and refuse to cooperate with the abortion industry, these projects can and do collapse. Let us write that same story here in Las Cruces — for our women, our children, and the integrity of our community.

Thank you for refusing to be silent. Thank you for acting with courage in this decisive moment.

Gratefully in Christ,

Mark Cavaliere, CEO
Southwest Coalition, Inc.

Stanley Jobe
Jobe Materials
1150 Southview Dr.
El Paso, TX 79928

Dear Mr. Jobe,

I hope this message finds you well. I am writing to inform you of an important stance I have taken regarding the construction of the tax-funded UNM abortion facility behind *MountainView Children's Center* near 4419 E Lohman Ave in Las Cruces. This decision stems from deep ethical convictions and a commitment to the welfare of our community and larger Borderland region.

I have pledged that neither I, my business, nor any of my direct associates will take any job, provide any supplies or services, nor work with anyone to facilitate the construction of this facility. I believe it is morally wrong to support this project, as it contradicts the values of life and community welfare. As it is written, "For what shall it profit a man, if he shall gain the whole world, and lose his own soul?" ~ Mark 8:36.

Furthermore, I have also committed to remove from my list of suppliers and contractors any company that chooses to participate in this facility's construction and will never again work with them, and am encouraging everyone I know to do the same.

I urge you to consider taking the same stance. This project, driven by outside special interests, poses a controversial threat to our community and is bad business regardless of one's stance on abortion. It is also critical to consider that our church community and local businesses offer far more consistent and reliable long-term demand, providing sustainable business opportunities that align with ethical and community-focused principles, which are not worth risking over this one-time abortion facility.

By standing together, we can protect the integrity of our community and positive business relationships. I encourage you to join me in this pledge at **www.StopTheCenter.com** and to inform your business associates of your decision. Together, we can ensure that our community remains a place that values and protects all lives.

Thank you for considering this important matter. I look forward to your support and collaboration in maintaining the moral and ethical standards that define our community.

Sincerely,

Sandoval Construction
650 Montana Ave. B
Las Cruces, NM 88001

I believe it is morally wrong to support this project, as it contradicts the values of life and community welfare. As it is written, "For what shall it profit a man, if he shall gain the whole world, and lose his own soul?" ~ Mark 8:36.

Furthermore, I have also committed to remove from my list of suppliers and contractors any company that chooses to participate in this facility's construction and will never again work with them, and am encouraging everyone I know to do the same.

I urge you to consider taking the same stance. This project, driven by outside special interests, poses a controversial threat to our community and is bad business regardless of one's stance on abortion. It is also critical to consider that our church community and local businesses offer far more consistent and reliable long-term demand, providing sustainable business opportunities that align with ethical and community-focused principles, which are not worth risking over this one-time abortion facility.

By standing together, we can protect the integrity of our community and positive business relationships. I encourage you to join me in this pledge at **www.StopTheCenter.com** and to inform your business associates of your decision. Together, we can ensure that our community remains a place that values and protects all lives.

Thank you for considering this important matter. I look forward to your support and collaboration in maintaining the moral and ethical standards that define our community.

Sincerely,

Bud Hettinga
Highland Enterprises Inc.
645 South Compress Road
Las Cruces, NM 88005

Dear Mr. Hettinga,

I hope this message finds you well. I am writing to inform you of an important stance I have taken regarding the construction of the tax-funded UNM abortion facility behind *MountainView Children's Center* near 4419 E Lohman Ave in Las Cruces. This decision stems from deep ethical convictions and a commitment to the welfare of our community and larger Borderland region.

I have pledged that neither I, my business, nor any of my direct associates will take any job, provide any supplies or services, nor work with anyone to facilitate the construction of this facility. I believe it is morally wrong to support this project, as it contradicts the values of life and community welfare. As it is written, "For what shall it profit a man, if he shall gain the whole world, and lose his own soul?" ~ Mark 8:36.

Furthermore, I have also committed to remove from my list of suppliers and contractors any company that chooses to participate in this facility's construction and will never again work with them, and am encouraging everyone I know to do the same.

I urge you to consider taking the same stance. This project, driven by outside special interests, poses a controversial threat to our community and is bad business regardless of one's stance on abortion. It is also critical to consider that our church community and local businesses offer far more consistent and reliable long-term demand, providing sustainable business opportunities that align with ethical and community-focused principles, which are not worth risking over this one-time abortion facility.

By standing together, we can protect the integrity of our community and positive business relationships. I encourage you to join me in this pledge at **www.StopTheCenter.com** and to inform your business associates of your decision. Together, we can ensure that our community remains a place that values and protects all lives.

Thank you for considering this important matter. I look forward to your support and collaboration in maintaining the moral and ethical standards that define our community.

Sincerely,

Jerome Garcia

I hope this message finds you well. I am writing to inform you of an important stance I have taken regarding the construction of the tax-funded UNM abortion facility behind *MountainView Children's Center* near 4419 E Lohman Ave in Las Cruces. This decision stems from deep ethical convictions and a commitment to the welfare of our community and larger Borderland region.

I have pledged that neither I, my business, nor any of my direct associates will take any job, provide any supplies or services, nor work with anyone to facilitate the construction of this facility. I believe it is morally wrong to support this project, as it contradicts the values of life and community welfare. As it is written, "For what shall it profit a man, if he shall gain the whole world, and lose his own soul?" ~ Mark 8:36.

Furthermore, I have also committed to remove from my list of suppliers and contractors any company that chooses to participate in this facility's construction and will never again work with them, and am encouraging everyone I know to do the same.

I urge you to consider taking the same stance. This project, driven by outside special interests, poses a controversial threat to our community and is bad business regardless of one's stance on abortion. It is also critical to consider that our church community and local businesses offer far more consistent and reliable long-term demand, providing sustainable business opportunities that align with ethical and community-focused principles, which are not worth risking over this one-time abortion facility.

By standing together, we can protect the integrity of our community and positive business relationships. I encourage you to join me in this pledge at **www.StopTheCenter.com** and to inform your business associates of your decision. Together, we can ensure that our community remains a place that values and protects all lives.

Thank you for considering this important matter. I look forward to your support and collaboration in maintaining the moral and ethical standards that define our community.

Sincerely,

Southwest Concrete & Paving

I have pledged that neither I, my business, nor any of my direct associates will take any job, provide any supplies or services, nor work with anyone to facilitate the construction of this facility. I believe it is morally wrong to support this project, as it contradicts the values of life and community welfare. As it is written, "For what shall it profit a man, if he shall gain the whole world, and lose his own soul?" ~ Mark 8:36.

Furthermore, I have also committed to remove from my list of suppliers and contractors any company that chooses to participate in this facility's construction and will never again work with them, and am encouraging everyone I know to do the same.

I urge you to consider taking the same stance. This project, driven by outside special interests, poses a controversial threat to our community and is bad business regardless of one's stance on abortion. It is also critical to consider that our church community and local businesses offer far more consistent and reliable long-term demand, providing sustainable business opportunities that align with ethical and community-focused principles, which are not worth risking over this one-time abortion facility.

By standing together, we can protect the integrity of our community and positive business relationships. I encourage you to join me in this pledge at **www.StopTheCenter.com** and to inform your business associates of your decision. Together, we can ensure that our community remains a place that values and protects all lives.

Thank you for considering this important matter. I look forward to your support and collaboration in maintaining the moral and ethical standards that define our community.

Sincerely,

Duke City Redi-Mix

Dear Mr. Shiver,

I hope this message finds you well. I am writing to inform you of an important stance I have taken regarding the construction of the tax-funded UNM abortion facility behind *MountainView Children's Center* near 4419 E Lohman Ave in Las Cruces. This decision stems from deep ethical convictions and a commitment to the welfare of our community and larger Borderland region.

I have pledged that neither I, my business, nor any of my direct associates will take any job, provide any supplies or services, nor work with anyone to facilitate the construction of this facility. I believe it is morally wrong to support this project, as it contradicts the values of life and community welfare. As it is written, "For what shall it profit a man, if he shall gain the whole world, and lose his own soul?" ~ Mark 8:36.
